Ferndale, CA 95536

**Section C -- During the Report Period, KEET engaged in the following recruitment initiatives:**

1. KEET's internship program with Cal Polytech Humboldt and College of the Redwoods is designed to assist members of the community to acquire skills needed for broadcast employment. During the Fall 2023 and Spring 2024 KEET hosted an internship program for students from Cal Polytech Humboldt and from College of the Redwoods. The interns worked in the production department primarily in-studio running cameras and assisting with sound, although there were also opportunities to do the same in the field, especially during KEET's live coverage of the annual Kinetic Sculpture Race over the Memorial Day weekend. KEET's internship program is intended to help individuals gain experience in broadcasting while also providing "real-life" skills to enhance the interns' job prospects generally. Our full-time Producers supervised and mentored the interns.
